Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Gentlemen:

Niagara Mohawk's letter of June 3, 1988 (NMP1L 0262), submitted proposed changes to the Technical Specifications to remove the organization charts from the Technical Specifications. This letter amends our submittal based on comments and discussions with the Nuclear Regulatory Commission staff. Enclosed are revised pages 245, 245a and 247 which supersede those contained in our June 3, 1988 submittal. In addition, proposed changes to Section 6.9 are included to make the Unit 1 Technical Specifications consistent with 10 CFR 50.4.

Supporting information and analysis demonstrating that the proposed changes involve no significant hazards consideration pursuant to 10 CFR 50.92 are included as Attachment B.

Pursuant to 10 CFR 50.91(b)(1), Niagara Mohawk has provided a copy of this license amendment request and the associated analysis regarding no significant hazards consideration to the appropriate state representative.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
