Gentlemen:

Subject: Emergency Exercise Objective and Scenario Guidelines

In order for the Region to fully support the Nine Mile Point full participation emergency exercise scheduled for the week of May 16, 1989 an adequate review of the exercise objectives and scenario is essential. The guidelines identified below will be used for the submittal and review of the objectives and scenario packages prior to the exercise. You will note that the schedule has been revised to reflect milestones established in FEMA's guidance memorandum EX-3 dated February 26, 1988. Region I has found that licensees generally comply with these guidelines, however, we recognize the need to stress the importance of both completeness and timeliness.

The following schedule should be used for all exercises:

<u>Days in Advance</u>	<u>Information to be Submitted</u>
90	Description and scope of exercise, and the objectives to be fulfilled should be received in the Region I office. The objectives should include specific objectives to demonstrate, where appropriate, the effectiveness of corrective actions taken in regard to problem areas which have been previously identified during NRC inspection, emergency exercises and drills and your internal evaluation process.
75	NRC will provide comments, in writing, based on our review of your submittal.
60	Complete exercise scenario package with modified objectives, schedules, exercise rules, all controller, contingency and simulation information, all data, including plant data, radiation level and release rate data, and samples of the data to be presented should be received in the Region I office.
30	NRC will provide comments, in writing, based on our (and our contractor's) review of your submittal.

Niagara Mohawk Power Corporation - 2 -

In order to protect the scenario from disclosure to participants, please send two copies to the Chief, Emergency Preparedness Section at the letterhead address, marked, "EMERGENCY EXERCISE SCENARIO/OBJECTIVES." Also, in order to expedite the review process, please send two copies directly to Battelle Pacific Northwest Laboratory, Attn: Mr. James Jamison, Emergency Preparedness Group, Health Physics Department, 2955 George Washington Way, Richland, Washington 99352, and one copy to the NRC Resident Inspector. If you anticipate that the established schedule will not be met, please notify us at the earliest possible date.

The NRC emergency preparedness specialist responsible for evaluation of your exercise is Mr. Craig Z. Gordon. Please identify the name, address and phone number of the individual on your staff with whom we should interface.

Your continued cooperation in this matter is greatly appreciated. If you have any concerns or questions, please contact Mr. Gordon at 215-337-5372.

Sincerely,

Original Signed By:
