February 13, 1989  
NMPIL 0356U.S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, D.C. 20555Re: Nine Mile Point Unit 1  
Docket No. 50-220  
DPR-63

Gentlemen:

Technical Specification Amendment Numbers 43 and 44 to the Nine Mile Point Unit 1 Operating License each required the addition of new valves to be indicated on page 119, Table 3.2.7, "Reactor Coolant System Isolation Valves." However, when Amendment Number 44 was approved and issued by the Nuclear Regulatory Commission, it did not include the valves in Table 3.2.7 corresponding to Amendment Number 43. This administrative error was made because the Technical Specification change request for Amendment Number 44 was submitted to the Nuclear Regulatory Commission before Amendment Number 43 was approved. A fully amended Table 3.2.7 was never issued.

Attached hereto is a redrafted page 119 which is complete and reflects all the valves added by Amendment Numbers 43 and 44. Niagara Mohawk requests that this page be issued as the official Technical Specification page for the Nine Mile Point Unit 1 Technical Specifications.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
