Washington, D.C. 20555Re: Nine Mile Point Unit 2
Docket No. 50-410
NPF-69

Gentlemen:

Nuclear Regulatory Commission IE Bulletin No. 88-07 Supplement 1, "Power Oscillation in Boiling Water Reactors," requested licensees to implement General Electric interim stability recommendations that were described in Attachment 1 to the Bulletin. Nine Mile Point Unit 2 Operating Procedure N2-OP-29 has been revised to incorporate the General Electric criteria in accordance with comments and clarifications of the BWR Owners Group Letter of January 26, 1989 (BWROG-8905). Training of the plant operating staff in the revised procedure has been completed with the exception of a makeup class for those who missed their regular training period.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
