Gentlemen:

Subject: Inspection Nos. 50-220/89-14 & 50-410/89-11

A routine inspection of your annual emergency preparedness exercise was conducted by Mr. C. Gordon and other NRC team members on May 15-17, 1989 at your Nine Mile Point Nuclear Station, Scriba, New York. Discussions of our findings were presented by Mr. Gordon to you and your staff at the conclusion of the inspection.

Areas examined during this inspection are described in the NRC Region I inspection report which is enclosed with this letter. Within these areas, the inspection consisted of selective examination of procedures and representative records, interviews with personnel, and observations made by the inspector.

Within the scope of this inspection, no violations were identified. Niagara Mohawk Power Corporation's performance during the exercise demonstrated the ability to implement the Emergency Plan and Emergency Plan Implementing Procedures in a manner that would provide adequate protective measures for the health and safety of the public.

No reply to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,
