Docket Nos. 50-220
50-410

Niagara Mohawk Power Corporation
ATTN: Mr. Lawrence Burkhardt, III
Executive Vice President
Nuclear Operations
301 Plainfield Road
Syracuse, New York 13212

Gentlemen:

Subject: Combined NRC Region I Inspection Report Nos. 50-220/89-21 and
50-410/89-16

This letter transmits the results of the routine inspection conducted by a special assessment team on August 21-25, 1989, at Nine Mile Point Units 1 and 2, Scriba, New York. A summary of the findings was presented to Mr. J. Willis and other members of your staff at the conclusion of the inspection.

In general, the team found that station employees expressed no reluctance in reporting concerns to management and are sufficiently familiar with the numerous mechanisms available for reporting concerns. In addition, the team identified no evidence of recent cases of harassment and intimidation directed at employees who raise safety concerns.

We appreciate your cooperation.

Sincerely,

Original Signed By:

William F. Kane, Director
Division of Reactor Projects
