Dear Mr. Burkhardt:

SUBJECT: SAFETY EVALUATION REGARDING THE PROCEDURES GENERATION PACKAGE  
FOR NINE MILE POINT UNIT 1 (TAC NOS. 44318 AND 69206)

Generic Letter 82-33 required licensees to submit a Procedures Generation Package (PGP). By letter dated March 1, 1984, with revisions in supplementary letters dated April 18, 1986 and March 3, 1987, Niagara Mohawk Power Corporation (the licensee) submitted the PGP for Nine Mile Point Unit 1.

The NRC staff has reviewed the licensee's submittals and finds that the program described in these submittals is incomplete in some of its content. The enclosed Safety Evaluation documents these findings. The staff requests that the licensee revise its PGP and make appropriate revisions to their Emergency Operating Procedures (EOPs) to reflect the concerns identified in the enclosed safety evaluation. In the event the licensee determines that revisions to the PGP and/or EOPs are not necessary, the licensee should document and retain the justification for its decision.

The requested revisions should be completed within 180 days of the date of this letter and will be subject to subsequent confirmation by the NRC staff during routine or special inspections.

All staff activities related to TAC Nos. 44318 and 69206 are considered complete.

Sincerely,

Original signed by

Robert E. Martin, Project Manager

1. The first of these is the fact that the United States has a long and distinguished record of leadership in the field of human rights. This record is reflected in the many treaties and conventions to which the United States has adhered, and in the many resolutions and declarations adopted by the United Nations and other international organizations. The United States has also been a leading proponent of the principle of self-determination, and has supported the right of peoples to free choice of their political status.

1. The fact that the Government has not been able to obtain the necessary information from the Soviet Union to enable it to make a decision on the matter is a serious matter. It is a matter which should be given the highest priority and the most careful consideration. It is a matter which should be given the highest priority and the most careful consideration. It is a matter which should be given the highest priority and the most careful consideration.
