Nine Mile Point Unit 2
Docket No. 50-410
NPF-69

Gentlemen:

Generic Letter 89-15 "Emergency Response Data System" was issued to solicit the participation of those utilities which have not volunteered for the Emergency Response Data System (ERDS) program. The purpose of this letter is to provide you with Niagara Mohawk's position regarding the implementation of the ERDS.

The ERDS system is intended to provide direct electronic transmission of a limited set of plant parameters from a licensee's computer to the Commission. The result of the data link would be improved communications between the utility and the Commission in the event of an emergency. Niagara Mohawk agrees with this assessment and has begun evaluating means to implement ERDS at Nine Mile Point Unit 1 and Nine Mile Point Unit 2.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
