Re: Nine Mile Point Unit 2
Docket No. 50-410
NPF-69

Gentlemen:

On July 17 and 18, 1985, the Nuclear Regulatory Commission with the assistance of consultants from Lawrence Livermore National Laboratory conducted an audit of the Nine Mile Point Unit 2 Safety Parameter Display System. The Commission's letter dated September 13, 1985, contained the results of the audit. Niagara Mohawk's letter dated November 19, 1985, (NMP2L 0538) provided our response.

In our November 19, 1985 letter Niagara Mohawk committed to provide the Commission with a "Systems Evaluation" to confirm the adequacy of the BWROG parameter set used at Nine Mile Point Unit 2. The purpose of this letter is to submit this evaluation. Please note that the display illustrations given in the evaluation are considered as proposals only.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION
