Re: Nine Mile Point Unit 1  
Docket No. 50-220  
DPR-63

Gentlemen:

On March 12, 1992, we submitted replacement pages for our September 20, 1991, Application for Amendment to the Nine Mile Point Unit 1 Operating License DPR-63. This application contained proposed revisions to Technical Specification Sections 3.1.4/4.1.4, 3.3.2/4.3.2 and 3.3.7/4.3.7 and associated bases to allow operation at 81°F lake water temperature and to provide consistency with the Mark I containment program.

Subsequent to the March 12, 1992 submittal, typographical errors were found on pages 130 and 134. The revised pages correct the typographical errors which occurred during retyping of the pages. As discussed with your Staff, improvements have been made in the processing of license amendments, however, this submittal was prior to those changes. We apologize for any inconvenience these errors may have caused.

Very truly yours,

B. Ralph Sylvia  
Exec. Vice President-Nuclear
