Dear Mr. Sylvia:

Subject: Combined Inspection Nos. 50-220/92-28 and 50-410/92-33

This letter refers to the inspection conducted by Ms. Laurie Peluso of this office on December 7-10, 1992, of activities authorized by NRC License Nos. DPR-63 and NPF-69 at the Nine Mile Point Site, Scriba, New York and the J.A.FitzPatrick Environmental Laboratory, Fulton, N.Y. and to the discussion of our findings held by Ms. L. Peluso with Mr. K. Dahlberg and Mr. M. McCormick and other members of your staff at the conclusion of the inspection.

Areas examined during this inspection, involving your Radiological Environmental Monitoring Program, are important to public health and safety and are described in the NRC Region I Inspection Report which is enclosed with this letter. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector.

Within the scope of this inspection, we noted that members of the Environmental Protection Department in cooperation with members of the New York Power Authority's Radiological Environmental Services Department have implemented the Radiological Environmental Monitoring Program effectively. No safety concerns or violations of regulatory requirements were identified.

No response to this letter is required. Your cooperation with us in this matter is appreciated.

Sincerely,  
Original Signed By;
