INTERNAL CAP

Date: 2/16/2017

Report Number: 2017001

Survey Date: 2/6/2017

Level IV Finding:

10 CFR 35.24(f) requires, in part, that the Radiation Safety Committee (RSC) must include an authorized user of each type of use permitted by the license. GVMC's RSC did not include an authorized user for each type of use permitted by the license. Specifically, from November 2014 to February 2016, the RSC membership did not include an authorized user for 10 CFR 35.400 use.

Corrective Action:

Dr. Baisden who is the provider for brachytherapy has been contacted and asked to be a member of the Radiation Safety Committee. Dr. Baisden has agreed to this and will be made a member immediately and will attend the next meeting of the committee. This will be reflected in the minutes of the meeting as evidence of completion of this finding.

Gary Mabry RT(R)

Director of Radiology
