

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D. C. 20555

March 21, 1986

Docket No. 50-410

Mr. B. G. Hooten  
Executive Director of Nuclear Operations  
Niagara Mohawk Power Corporation  
300 Erie Boulevard West  
Syracuse, New York 13202

Dear Mr. Hooten:

Subject: Nine Mile Point 2 Technical Specification Schedule

By letter dated February 3, 1986, we transmitted the schedule for review of the Technical Specifications for Nine Mile Point 2. During discussions with Mr. C. Mangan, Sr. Vice President for Niagara Mohawk, it was agreed that the issuance of the Final Draft Issuance of the Technical Specifications would be delayed by three weeks. This delay would allow additional discussions between NRC staff and Niagara Mohawk staff to resolve some outstanding issues before issuing the Final Draft Technical Specifications. The revised schedule is enclosed. This schedule is not expected to affect a May, 1986 fuel load schedule for Nine Mile Point 2.

Sincerely,

A handwritten signature in cursive script that reads "Mary F. Haughey".

Mary F. Haughey, Project Manager  
BWR Project Directorate No. 3  
Division of BWR Licensing
