Re: Nine Mile Point Unit 1
Docket No. 50-220
DPR-63

Gentlemen:

Niagara Mohawk Power Corporation hereby transmits an Application for an Amendment to Nine Mile Point Unit 1 Operating License DPR-63. Also enclosed are the proposed changes to the Technical Specifications set forth in Appendix A to the above mentioned license. Supporting information and analyses demonstrating that the proposed changes involve no significant hazards consideration pursuant to 10 CFR 50.92 are included as Attachment B.

The proposed Technical Specification changes contained herein are to Administrative Controls Sections 6.5 and 6.12. The change to Section 6.5, "Review and Audit," deletes the title Manager Health Physics from the SORC composition; and the change to Section 6.12 "High Radiation Areas" replaces the title Manager Health Physics with Manager Radiation Protection. The proposed changes result from reorganization within Niagara Mohawk's Nuclear Division. This reorganization establishes a Manager Radiation Protection for each unit, providing accountability for program implementation through the Plant Managers.

The proposed changes have no safety or environmental significance. The basis for concluding that this request does not involve a significant hazards consideration is included as Attachment B of our application.

Niagara Mohawk requests approval of this proposed change 90 days from the date of this letter.

Pursuant to 10CFR50.91(b)(1), Niagara Mohawk has provided a copy of this license amendment request and the associated analyses regarding no significant hazards consideration to the appropriate state representative.

Very truly yours,

NIAGARA MOHAWK POWER CORPORATION

B. R. Sylvia
Executive Vice President-Nuclear
