UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

May 22, 1991

Docket Nos. 50-220
and 50-410

Mr. B. Ralph Sylvia
Executive Vice President, Nuclear
Niagara Mohawk Power Corporation
301 Plainfield Road
Syracuse, New York 13211

Dear Mr. Sylvia:

SUBJECT: RESPONSE TO GENERIC LETTER 90-03 FOR THE NINE MILE POINT NUCLEAR
STATION UNIT NOS. 1 AND 2 (TAC NOS. 76261 AND 76262)

On March 20, 1990, the NRC issued Generic Letter (GL) 90-03, "Relaxation of Staff Position in Generic Letter 83-28, Item 2.2 Part 2 'Vendor Interface for Safety-Related Components'." The GL requested that all licensees and applicants review their present vendor interface programs and modify them as necessary using the guidance supplied in the GL.

By letters dated September 25, 1990, and May 15, 1991, Niagara Mohawk Power Corporation (NMPC) responded to GL 90-03 and indicated that the NMPC vendor interface programs will be fully implemented by December 31, 1991, in accordance with the guidance given in the GL. The NRC staff has reviewed your responses and find them acceptable.

Please notify us by letter when your vendor interface programs are fully implemented. This action closes TAC Nos. 76261 and 76262.

This requirement affects one respondent and, therefore, is not subject to Office of Management and Budget review under P.L. 96.511.

Sincerely,

Donald S. Brinkman
