

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

July 2, 1992

~~50-220~~
~~50-220~~

The Honorable James T. Walsh
Member, United States House
of Representatives
P. O. Box 7306
100 South Clinton Street
Syracuse, New York 13261

Dear Congressman Walsh:

I am responding to your June 17, 1992, letter to Mr. Dennis Rathbun, Director, Office of Congressional Affairs, in which you requested information for your constituent, Mr. Frank Adelsperger, on requirements for small businesses supplying technical services to nuclear power facilities, including the Nine Mile Point, Units 1 and 2 and the James A. FitzPatrick facilities located in New York State.

Mr. Adelsperger stated in his letter to you that there seems to be a requirement that any small business or person seeking to supply technical services to nuclear power facilities must have U.S. Navy nuclear experience. The NRC does not impose any such requirement on its licensees. Furthermore, we have discussed Mr. Adelsperger's concern with representatives from both the Niagara Mohawk Power Corporation (licensee for Nine Mile Point Nuclear Station, Units 1 and 2) and with the New York Power Authority (licensee for the James A. FitzPatrick Nuclear Power Plant). Both of these licensees indicated that they do not require persons or organizations providing services to their facilities to have U.S. Navy nuclear experience.

The NRC does impose certain requirements which persons or organizations may be required to comply with when supplying services to licensed nuclear power facilities. The extent of the requirements that may be imposed would depend upon the type services provided and the location for performing the services. Enclosure 1 is a summary of the principal NRC requirements that may apply to contractors supplying services to licensed nuclear power facilities. These requirements pertain to four major areas: staff qualifications, quality

assurance, fitness-for-duty, and access authorization. Enclosures 2-9 are copies of the requirements referenced in Enclosure 1. The New York Power Authority, being a State agency, may also have additional State requirements imposed on it.

I trust this reply responds to your request.

Sincerely,

Original Signed By
James M. Taylor
