Mr. Dennis Rathbun  
Director  
Office of Congressional Affairs  
Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Rathbun,

I am writing on behalf of my constituent, Mr. Frank Adelsperger of Adelsperger Associates, who is trying to obtain information on policies affecting small businesses.

I have enclosed a copy of his correspondence for your reference. I would very much appreciate it if you would review the matter very carefully and provide me with any information that would assist me in responding to my constituent:

Hon. James T. Walsh  
attn: Michelle Smolen  
P.O. Box 7306  
100 South Clinton Street  
Syracuse, New York 13261

If you require additional information or should you have any questions, please call my District Office at (315) 423-5657.

Thank you for your consideration and expedient handling of this matter.

Sincerely,

  
James T. Walsh  
Member of Congress

U. S. House of Representatives  
Washington, D. C. 20515

Subjects: Discussion items of interest on your April 22 community meetings.

Dear Congressman Jim Walsh,

The subjects are all related individual employment and use of or aid to small business in the state and else where.

I am a small business owner suppling technical services to major corporations around the United States and do to the economy have some need for your assistance in opening up fields of potential contracts. I am attaching a company brochure for your information and use as you may require.

1. Nuclear power facilities commercial and government (Nine mile 1 and 2, Fitzpatrick and West Valley) There seems to be a requirement that any small business or person must have US Navy nuclear experience. These facilities also do not response to inquiry. I need help in opening the door to develop a working relation with these nuclear operations. They need the help of outside talent and their are many small companies which aid other nuclear facilities in this state and around the country.

2. Some nuclear power facilities controller by the NRC and DOE advertise for personnel and require a "Q" clearance. If you are not working for a company that carries your clearance you can not be accepted. When you are unemployed DOE regulations require that your clearance be terminated on the last day of employment. Please look into how I and my small business may carry DOE clearances.

**315-673-3327**  
**Fax 315-673-9131**

3. There are strange rules, regulations or policies controlling employment of temporary help at Savannah River Nuclear Site, Aiken, SC; a DOE facility operated by Westinghouse. Which is that after a person has worked there for one year or expensed the dollar value of year regardless of position or quality of work performed, that person may never again be employed at Savannah River Nuclear Site. Other DOE sites operated by the same or other contractors do not have or enforce this policy. Please look into this matter for me and other small business which supply contract (temporary) employees.

These problems(2 & 3) also have an impact on contract employment firms. One of these which stated that I could use their name was

Julie Kromer 1-800-284-2841  
PEAK Technical Services  
3424 William Penn Highway  
Pittsburgh, PA 15236-5411

I would be happy to discuss these or any other related questions with you or your representative at your convenience. I and my company are available to respond to any request for information or request for quote that you might require.

Thank you for taking the time to come to Marcellus and listen. Thank you also for looking into these items. Many of us appreciate your efforts.

Sincerely,

Frank C. Adelsperger  
President  
Adelsperger Associates, Inc.
