FROM: COMMISSIONER ROBERTS

SUBJECT: SECY-87-314 - INTERIM POLICY STATEMENT ON
MAINTENANCE OF NUCLEAR POWER PLANTS

APPROVED _____ DISAPPROVED _____ ABSTAIN _____
 NOT PARTICIPATING _____ REQUEST DISCUSSION _____

COMMENTS: If this were only a minor policy issue I would not disagree with acting on this paper prior to ACRS review. However, because the Commission direction in the area of maintenance is a major policy issue, I agree with Commissioner Bernthal that it is important that we have the benefit of the views of the ACRS before acting on this paper. I agree with Commissioner Carr that SECY should work with the EDO and the ACRS staff to ensure that ACRS input is available prior to Commission review of major issues such as this.
