Dear Mr. Sylvia:

SUBJECT: INSPECTION REPORT NO. 50-410/93-27

This letter transmits the findings of the special safety inspection conducted by Messrs. J. H. Williams and S. L. Hansell of this office from November 29 to December 3, 1993, at Nine Mile Point, Unit 2. At the conclusion of the inspection, Mr. Williams held discussions of our findings with members of your staff.

The inspection was in the area of plant operations. The objective was to ensure that the facility's operations department conducted activities in a safe manner and in accordance with both regulatory requirements and licensee approved procedures.

In summary, operations were conducted safely, in accordance with regulatory requirements, and approved procedures.

Within the scope of this inspection, no unresolved items or violations were identified. The corrective actions associated with one violation and one inspector follow item were reviewed and found to be acceptable. We appreciate your cooperation.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

Sincerely,

Lee H. Bettenhausen
