Dear Mr. Sylvia:

SUBJECT: RESULTS OF THE ON-SITE EQ REVIEW AT NINE MILE POINT NUCLEAR STATION
UNIT NO. 1 (TAC NO. M85648)

During the period from March 14 through March 17, 1994, the NRC staff performed an on-site review of EQ-related information at Nine Mile Point Nuclear Station Unit No. 1 (NMP-1) in support of the NRC staff's task action plan to identify and address existing EQ issues and concerns. The purpose of this review was not to assess compliance with NRC regulations, but rather to gather information that is critical to the NRC staff's ongoing EQ review. Due to the support and cooperation that was afforded by plant personnel at all levels, the time spent by the NRC staff at NMP-1 was very productive and worthwhile. We appreciate very much the time and effort that was spent by your staff in assisting us in this effort. The results of the NRC staff's EQ review are enclosed for your information.

Sincerely,

Original signed by:
Donald S. Brinkman, Senior Project Manager
Project Directorate I-1
