Re: Niagara Mohawk Power Corporation, Nine Mile Point Unit One

Dear Mr. Sellin,

We are requesting the schedule for the inspection of the drywell steel liner at Niagara Mohawk's, Nine Mile Point Unit One for corrosion.

Also, we are requesting the schedule for the inspection of the core shroud for cracks.

In addition, we are requesting the schedule and inspection program for the reactor internals at Unit One because the NRC is now studying the vulnerability of cracking of the twenty-four other reactor internals. If there is not a schedule available for the other reactor internals for inspection, please indicate why this is not important at this time.

Sincerely,

Cindy Gagne
