Docket No. 50-410

Mr. B. Ralph Sylvia
Executive Vice President - Nuclear
Niagara Mohawk Power Corporation
Nine Mile Point Nuclear Station
P. O. Box 63
Lycoming, New York 13093

Dear Mr. Sylvia:

SUBJECT: INITIAL EXAMINATION REPORT NO. 50-410/94-24 (OL)

On October 24, 1994, the NRC administered initial retake examinations to two employees of your company who had applied for licenses to operate the Nine Mile Point Station, Unit 2. These individuals had failed the written portion of their original license examinations administered during the week of May 6, 1994. The examinations evaluated knowledge and abilities important to safety and were conducted in accordance with NUREG-1021, "Operator Licensing Examiner Standards," Rev 7.

The results of the examinations were that both the senior reactor operator candidate and the reactor operator candidate passed their examinations and were issued licenses. Should you have any questions concerning this examination, please contact me at 610-337-5211.

Sincerely,

Glenn W. Meyer, Chief
BWR and PWR Sections
Division of Reactor Safety

Enclosure: Examination Report No. 50-410/94-24(OL)
with Attachments 1, 2, and 3
