U. S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, DC 20555

RE: Nine Mile Point Unit 1  
Docket No. 50-220  
DPR-63

*Subject: Completion of Fire Barrier Modification (TAC No. M85574)*

Gentlemen:

By letter dated March 10, 1995, the Nuclear Regulatory Commission (NRC) informed Niagara Mohawk Power Corporation (NMPC) that the information requested in Generic Letter 92-08, "Thermo-Lag 330-1 Fire Barriers," had been provided and that actions tracked by TAC No. M85574 were closed. This letter also requested that NMPC advise the NRC, in writing, when the modification to replace existing Thermo-Lag fire barriers, as described in NMPC letter of December 14, 1994 (NMP1L0884), was implemented.

The above-referenced modification, N1-94-008, involving the replacement of Thermo-Lag 330-1 fire barriers with an acceptable material was accepted for operation on November 22, 1995 and has been implemented.

Sincerely,

Carl D. Terry  
Vice President - Nuclear Engineering
