Dear Mr. Sylvia:

The NRC staff has reviewed your request for an extension of 90 days to the current date for completion of the Nine Mile Point Nuclear Station, Unit No. 1 (NMP-1) GL 89-10 program. This extension was requested by letter, dated March 17, 1997, so the recently issued Information Notice 97-07 can be fully addressed in the NMP-1 closure documentation.

As agreed by your staff on June 4, 1997, an extension is granted to NMP-1 for delaying notification of GL 89-10 program closure until July 31. This is an extension of 83 days verses the requested 90 days. If you have questions regarding this letter, please call me at (301) 415-3049, or e-mail me at dsh@nrc.gov.

Sincerely,
