*Subject:       Organization Changes*

Gentlemen:

Mr. John H. Mueller has been elected Chief Nuclear Officer and assumed the duties and responsibilities previously held by Mr. B. Ralph Sylvia. Mr. Sylvia will remain with Niagara Mohawk as Executive Vice President reporting to Mr. Budney and will continue to be responsible for corporate activities unrelated to the daily operation of the Nine Mile Point Nuclear Station.

In addition to the above election, additional changes have been announced pertaining to the Nine Mile Point Nuclear Station. Effective March 9, 1998, Mr. Richard B. Abbott assumed the position of Vice President - Nuclear Engineering, Mr. Robert G. Smith the position of Unit 1 Plant Manager, and Mr. Kim A. Dahlberg the position of Vice President - Special Projects. Mr. John T. Conway assumed the newly created position of Vice President - Nuclear Generation.

To improve the efficiency within the organization, it is also Niagara Mohawk's intent to submit a Technical Specification amendment request removing the position of Vice President and General Manager - Nuclear. In the interim, Mr. Mueller will continue to fulfill the responsibilities of this position on an acting basis until a request to remove the position is approved.
