**RE: License Number 21-32807-01
License amendment request**

Dear Ms. Shaffer,

I have a request to amend our license to include a second address that will have full time storage of one nuclear density gauge. The second address is:

ATC Group Services LLC
4519 Broadmoor Ave SE
Grand Rapids, Michigan 49512

We propose to have myself function as RSO at both offices, here in Novi and part time in Grand Rapids. I would travel to Grand Rapids at least once a month to conduct my monthly and annual radiation safety review. We will continue to store four nuclear density gauges in our Novi office. There are currently no nuclear materials stored at our Grand Rapids location at this time.

If you have any questions feel free to contact me at 248-669-5140 extension 133 or on my mobile phone at 248-688-2069.

Respectfully submitted,
ATC Group Services LLC

Kara M. Grisamer, P.E., CWI
