Campbell, CA 95008

SUBJECT: APPLICATION FOR REVISING THE MODEL NO. MIDUS TRANSPORT  
PACKAGE – ACCEPTED FOR REVIEW (TAC NO. L25184)

Dear Mr. van Noordennen:

By letter dated January 30, 2016, you submitted an application for revising Certificate of Compliance No. 9320 for the Model No. MIDUS transport package. The application requests to change the minimum density of depleted uranium used as shielding material. The applicant did not request additional changes to the design of this package.

The staff performed a brief acceptance review of your application to determine if the application contained sufficient technical information in scope and depth to allow the staff to complete a detailed technical review. This letter acknowledges acceptance of your application.

The application appears to contain the information needed for our technical review. We have established a schedule for the review and estimated that the staff may need approximately 250 hours to complete its review. The schedule allows for the staff to complete its technical review and issue the first request for additional information (RAI) in March 2017 and, if a second RAI is not needed, a certificate of compliance in April 2017, based on you responding to the first RAI in March 2017. In general, no additional changes to the application should be submitted except for changes resulting from your response to an RAI.

Please reference Docket No. 71-9320 and CAC No. L25184 in future correspondence related to this action. If you have any questions regarding this matter, please contact me at (301) 415-6999.

Sincerely,
