Subject: NUCLEAR REGULATORY COMMISSION VENDOR INSPECTION OF
WESTINGHOUSE/WECTEC REPORT NO. 99901467/2016-201 dated February 2, 2017

Your ref: NRC Vendor Inspection Report Number 99901467/2016-201

Westinghouse acknowledges receipt of NRC Inspection Report Number 99901467/2016-201, Notice of Nonconformance dated February 2, 2017 and the Notice of Non-Conformance 99901467/2016-201-01. Westinghouse takes any notice of nonconformance received from the NRC seriously and is taking appropriate actions to investigate and resolve these issues in a timely manner.

In order to complete the above activities and ensure a comprehensive evaluation of the Notice of Nonconformance, Westinghouse respectfully requests that the NRC grant an extension to the reply date. This will enable us to confirm that the reply adequately addresses the identified issue and accurately describes the actions that are being taken and have been taken. Therefore, Westinghouse requests that the reply due date be extended to thirty days to April 5, 2017.

Thank you for the NRC's consideration in this matter.

Very truly yours,

Sarah DiTommaso, Manager

ITAAC and Inspection Support
