Ms. Roque Palacios:

We received your notification regarding your new EDO. As documented in our letter dated December 15, 2016, following an on-site inspection, and your follow-up email, we understand that the therapy device was last used for medical use on June 28, 2016, and that you have been re-negotiating physician and physicist contracts since then. We also understand that you expected to complete negotiations and resume medical use by the end of January 2017, and that if there is a delay, that you would contact us immediately and consider amending your NRC license to place the device in storage pending completion of negotiations or disposal of the sources back to the manufacturer. Please indicate whether: (i) negotiations have been completed and describe any changes to the listing of authorized users and authorized medical physicists; (ii) the device should be placed in a storage only capacity pending completion of negotiations, with a listing of the individuals responsible during storage provided; or (iii) the device should be placed in a storage only capacity pending return of the sources to the manufacturer, with the date of expected return supplied.

You may fax the above information to my attention to 610-337-5269. Alternatively, you may submit a signed pdf via email with the requested information. Please reference Mail Control No. 592841 in your response.

Thank you for your assistance,
Penny Lanzisera
Senior Health Physicist
U.S. NRC, Region I
