SUBJECT: MAINTENANCE OF REFERENCE MATERIALS AT THE OAK RIDGE PUBLIC LIBRARY RELATED TO THE ENVIRONMENTAL REVIEW OF THE TENNESSEE VALLEY AUTHORITY EARLY SITE PERMIT APPLICATION AT THE CLINCH RIVER NUCLEAR SITE

Dear Ms. McNeilly:

This letter is a follow-up to our visit to your library on March 31, 2016, and call of March 9, 2017, concerning your agreement to maintain documents related to the environmental review for the Clinch River Nuclear (CRN) Site Early Site Permit (ESP) application at your library. These documents are related to the Nuclear Regulatory Commission (NRC) staff's environmental review and preparation of an environmental impact statement (EIS) for the Tennessee Valley Authority's application for an ESP at the CRN Site.

We appreciate your willingness to assist the public in participating in the ESP application process for a new nuclear reactor. As discussed, your support would consist of providing shelf space in your reference section, for documents related to the NRC staff's environmental review of the application to allow access by the public. Included with the package are one hard copy and one CD of the CRN Site environmental report.

We will place the Oak Ridge Public Library on our distribution list for future correspondences and documents related to our environmental review. We request that you place these items on the reference shelf as they are received.

K. McNeilly
