With this letter, I inform you that Dr. Jae-Yong Lee is leaving the APR1400 project and Dr. Han-Gon Kim has been assigned to the new Project Manager as of March 2, 2017.

Dr. Kim has been working for this project since 2011. He has over twenty-year experience in the design of nuclear power plants. He is a well-qualified person who will work closely with the NRC so that the staff will be able to review the APR1400 DC application in a timely and efficient manner.
