

6. The following criteria are customarily applied by AREVA to determine whether information should be classified as proprietary:

- (a) The information reveals details of AREVA's processes, equipment, or products.
- (b) Use of the information by a competitor could permit the competitor to significantly reduce its expenditures, in time or resources, to design, produce, or market similar products, equipment, or processes.
- (c) The information reveals certain distinguishing aspects of equipment and products, the exclusive use of which provides a competitive advantage for AREVA in product optimization or marketability.
- (d) The information is vital to a competitive advantage held by AREVA, would be helpful to competitors to AREVA, and would likely cause substantial harm to the competitive position of AREVA.

The information identified in these Documents is considered proprietary for the reasons set forth above. In particular, AREVA has expended considerable sums of money to develop the products and associated evaluations described in these documents. The release of the AREVA documents would allow a competitor to develop similar products and evaluations without incurring the significant expense of having to develop these products and associated evaluations.

7. In accordance with AREVA's policies governing the protection and control of information, proprietary information contained in these Documents has been made available, on a limited basis, to others outside AREVA only as required and under suitable agreements providing for nondisclosure and limited use of the information.

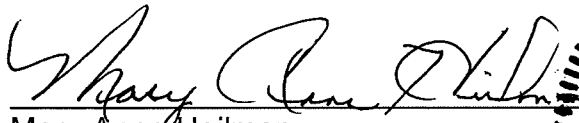

8. AREVA policy requires that proprietary information be kept in a secured file or area and distributed on a need-to-know basis.

9. The foregoing statements are true and correct to the best of my knowledge, information, and belief.
