License No. 41-08165-20

Docket No. 03038668

Mail Control No. 592692

Ben,

This is in reference to your Financial Assurance submittal, dated December 16, 2016, for NRC License No. 41-08361-01. In the Certification of Financial Assurance document the table listing the radioisotopes, form, and amount does not match what is on your NRC license. For instance, item B.(2) from your license does not appear on the table in the Certification and item E. is listed under item B. Please resubmit the Certification of Financial Assurance with the table correctly matching types and amounts of materials authorized by the license. If you have any questions my contact information is listed below.
