**RE: Change of Control of American Health Network of Indiana, LLC
Request for Expedited Review
Materials License # 13-32555-01**

To Whom It May Concern:

The purpose of this letter is to inform the NRC of a likely, impending change of control of American Health Network of Indiana, LLC ("AHN") and to request NRC's written consent to this change of control. AHN holds the above-referenced Materials License ("License") issued by the NRC. The License permits licensed materials to be used or stored at 3631 Morrison Road, [REDACTED], Muncie Indiana. Please note that AHN previously submitted on November 10, 2016 a letter notification both to close-out and transfer nuclear materials at the other address included on the above-referenced materials license, 6820 Parkdale Place, [REDACTED], Indianapolis, Indiana and to modify the list of authorized users under the materials license. This letter does not modify the November 10, 2016 notice.

Information to comply with the provisions of U.S. Nuclear Regulatory Commission NUREG-1556, "Consolidated Guidance About Materials Licenses," Volume 15, "Guidance About Changes of Control and About Bankruptcy Involving Byproduct, Source, or Special Nuclear Material Licenses," follows:

1. American Health Network, Inc. and its subsidiary, American Health Network of Indiana, Inc. ("AHNIN Inc."), currently own and control all of the outstanding equity interests in AHN. American Health Network, Inc. intends to sell substantially all of its assets, including its equity interests in AHN and AHNIN Inc., to Collaborative Care Holdings, LLC ("CCH"), a Delaware limited liability company, that is an indirect subsidiary of Optum, Inc. and UnitedHealth Group Incorporated (the "Transaction"). American Health Network, Inc. and CCH have recently executed an equity purchase agreement detailing the terms of the Transaction. Both parties are optimistic that the Transaction

RECEIVED MAR 01 2017

will be consummated, and that it will close on the target date of March 31, 2017, but there is always some possibility that it either will not happen or that the closing date will be postponed. Because of our projected closing date, we are requesting an expedited review and appreciate your consideration in advance.

As a result of the Transaction, AHNIN Inc. will transfer its equity interest in AHN to American Health Network, Inc., and American Health Network, Inc. will then contribute all of the outstanding equity interests in AHN to a new operating company, AHN Target Holdings, LLC, a Delaware limited liability company ("**Holdings**"). American Health Network, Inc. will then sell its equity interest in Holdings to CCH. AHN will remain the holder of the License, continue to operate the services, and will not change its Federal Employer Identification Number. CCH will have ownership and control of Holdings, which will be the sole member of AHN, following the closing of the Transaction. Additional information about the Transaction may be obtained from the following individuals:

For AHN:

Sarah Cotterill
(317) 580-6305

For CCH:

John Liethen
(952) 205-6262

2. The Transaction will not result in any changes in the radiation safety officer, the authorized users or any other personnel identified in previous license applications as responsible for radiation safety or use of the licensed material. There will also be no changes in the duties that relate to the License in connection with the Transaction.
3. There will be no changes in the facilities, location, equipment, radiation safety program, use of materials, or possession and waste management procedures that relate to the License and the radiation safety program. Changes in the organization will include (a) the entity that holds the interest in AHN, and (b) the board of directors and officers for the parent company, Holdings.
4. At the present time, the surveillance program activities (calibrations, leak tests, radiation surveys, wipe tests, quality control, and training) are current. The surveillance program will continue unaltered through the change of control process. At the time control is transferred, all surveillance program activities and records will be current.
5. The Transaction will not require any changes to the decommissioning funding plans based on the Transaction.
6. After the Transaction, AHN will continue to own, control and maintain all records concerning the safe and effective decommissioning plans for the organization, including documentation of surveys of ambient radiation levels and fixed and/or removable contamination.
7. CCH has been made aware of the License and its attendant requirements and understands its responsibility under any enforcement actions. At this time, there are not open inspection items related to the License.

February 3, 2017

Page 3

8. CCH will abide by, and AHN will continue to abide by, all constraints, conditions, requirements and commitments identified in the License or otherwise made to NRC by AHN.

Based on the above information, AHN respectfully requests NRC's written consent to the Transaction and is asking that the NRC provide an expedited review to accommodate the projected closing date for the Transaction. If any further information is required to obtain NRC's consent, AHN and CCH will be happy to provide that information.

Thank you for your assistance in this matter.

Sincerely,

AMERICAN HEALTH NETWORK OF INDIANA, LLC
