

Note to File

In a letter dated January 27, 2017, John Miller, Health Physicist, attempted to send an acceptance letter to Patriot Coal Corporation in response to their letter dated November 24, 2015, notifying the NRC that Patriot Coal and their wholly-owned subsidiaries had completed their Chapter 11 restructuring process, emerged from bankruptcy, and divested their assets. The letter was returned to the Region 1 Office marked "Return to Sender." Reasonable effort was expended to identify a proper forwarding address but the effort was not successful. Miller has concluded that Patriot Coal no longer exists as a company. Separate licensing actions were completed to transfer the licenses to new companies. Therefore, this note to file serves as closure to licensed activities for Patriot Coal and its wholly-owned subsidiaries.
