Hi, Ashley,

No additional information is needed. Please proceed with your project.

Best,

Beth

Good Afternoon Beth,

We are in the process of completing our Section 106 review for the Jane Dough in situ uranium recovery project. NRC solicited public comments on the cultural resource sections of the Jane Dough Draft Environmental Assessment, and that comment period ended on February 27, 2017. We received no comments or additional information. Wyoming State Historic Preservation Office provided concurrence of no historic properties adversely affected, dated August 30, 2016. Can you confirm no additional information is needed from NRC to complete our review.

Thank you,

Ashley Waldron
