

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**

REGION I
2100 RENAISSANCE BLVD., SUITE 100
KING OF PRUSSIA, PA 19406-2713

March 7, 2017

MEMORANDUM TO: Theodore Smith, Chief
Materials Decommissioning Branch
Division of Decommissioning, Uranium Recovery, and Waste
Programs
Office of Nuclear Material Safety and Safeguards

FROM: Raymond J. Powell, Chief */RA/*
Decommissioning and Technical Support Branch
Division of Nuclear Materials Safety
Region I

SUBJECT: DEPARTMENT OF HEALTH AND HUMAN SERVICES,
TRANSFER OF DECOMMISSIONING PROJECT MANAGEMENT
FROM REGION I TO NMSS, MAIL CONTROL NO. 592468

On November 25, 2016, the Department of Health and Human Services of the Food and Drug Administration (FDA) requested a partial site release of the area located behind the existing main lab building in Winchester, MA under NRC License #20-08361-01. Region I was initially preparing to handle this Group 4 decommissioning action, however, after reviewing the historical site assessment we learned there is potential for subsurface contamination. We believe it is appropriate for NMSS to take on project management of this action as NRC Headquarters usually has the responsibility of managing decommissioning projects for material sites in Groups 4-7 as stated in NUREG 1757. The purpose of this memorandum is to document the mutual agreement between NMSS and Region I on the transfer of project management for the decommissioning action #592468. Although NMSS will assume responsibility for project management of this action, this is a Region I licensing action so all formal communications will need to go through Region I so we can ensure they are processed as part of the open licensing action. Region I inspectors will also conduct any onsite inspections as required.

License No. 20-08361-01
Docket No. 03004675
Control No. 592468
