March 9, 2017

Mr. Steven Corless
Supervisory, Engineering Technician
U.S. Department of the Interior
Bureau of Reclamation, YAO 3420
7301 Calle Agua Salada
Yuma, Arizona 85364

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 02-29285-01

By letter dated December 21, 2016, you informed the Nuclear Regulatory Commission (NRC) that the U.S. Department of the Interior, Bureau of Reclamation, Yuma Area Office, wished to terminate NRC radioactive materials license number 02-29285-01. The NRC Form 314 dated December 21, 2016 and letter received on March 6, 2017 stated that all radioactive material had been transferred to a licensed entity.

The supporting documentation to the NRC Form 314 included copies of the most current leak test results that were negative for removable contamination, an indication that the sealed sources contained in the devices were not leaking. Based on the documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material has been removed from the facility located at 7301 Calle Agua Salada, Yuma, Arizona. This facility is suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." No further remediation with respect to NRC regulated material is required.

Please find enclosed Amendment No. 1 to License No. 02-29285-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii). You can contact me at 817-200-1189 if you have questions on any of the information stated above.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

/RA/

Roberto J. Torres, M.S., Senior Health Physicist
Nuclear Materials Safety Branch B
