Dear Mr. Smith,

This is in reference to your application dated January 11, 2017 requesting to renew Nuclear Regulatory Commission (NRC) License No. 47--24837-01. In order to continue our review, we need the following additional information:

1. In your renewal application, #5 – Radioactive Material, it states that you possess an Ohmart Model SHRM, S/N 66836, fixed gauge containing 100 mCi of Cs-137. In your letter to the US NRC dated September 13, 2007, it states that an Ohmart Model SHF1A-0, S/N 66836 fixed gauge containing 10 mCi of Cs-137 was installed by Ohmart Vega Personnel. Please provide written clarification as to the correct model # and activity for that fixed gauge.
2. Please verify the activity in each fixed gauge that you possess and provide written clarification as to total quantity of activity for each model of fixed gauge that you would like to possess under your license.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800.
