Docket No. PROJ0772
Fuel Topical Review Suspension

Nuclear Innovation North America (NINA) requests that the Office of New Reactors indefinitely suspend the review of the following two topicals:

- WCAP 17202 "Supplement 4 to BISON Topical Report RPA 90-90-A"
- WCAP-17203 "Fast Transient and ATWS Methodology"

We expect to be able to reinstate the review of these topicals at a later date. It is our understanding that the Draft Safety Evaluation Reports for each topical report will be available for future use once this review is restarted.

There are no commitments in this letter.

If you have any questions regarding this matter, please contact me at (979) 316-3011, or Bill Mookhoek at (979) 316-3014.
