Amendment No. 9

11. The Radiation Safety Officer (RSO) for this license is Abdulbaki Agbas, Ph.D.
12. Licensed material shall only be used by, or under the supervision of:

<u>Authorized Users</u>	<u>Material and Use</u>
Abdulbaki Agbas, Ph.D.	All
13. The licensee is authorized to hold radioactive material with a physical half-life of less than or equal to 120 days for decay-in-storage before disposal in ordinary trash provided:
- A. Before disposal as ordinary trash, the waste shall be surveyed at the container surface with the appropriate survey instrument set on its most sensitive scale and with no interposed shielding to determine that its radioactivity cannot be distinguished from background. All radiation labels shall be removed or obliterated.
- B. A record of each such disposal permitted under this license condition shall be retained for 3 years. The record must include the date of disposal, the date on which the byproduct material was placed in storage, the radionuclides disposed, the survey instrument used, the background dose rate, the dose rate measured at the surface of each waste container, and the name of the individual who performed the disposal.
14. The licensee will continue to take all actions within its ability to dispose of its material and notify NRC within 30 days if disposal is achieved.
15. The licensee shall not use the licensed material in or on humans.
16. The licensee shall not use licensed material in field applications where activity is released except as provided otherwise by specific condition of this license.
