NRC License # 48-32697-01

Material Licensing Branch
U.S. Nuclear Regulatory Commission, Region III
2443 Warrenville Road, Suite 210
Lisle, IL 60532-4352

Northern Shared Medical Services would like to make three amendments as follows:

1. There is a misspelling of an authorized user on our current NRC licensure. Timothy M. McCluse, M.D. should read **Timothy M. McClure, M.D.** from the NRC licensure 13-09274-03.
2. Northern Shared Medical Services would like to add an additional authorized user to our radioactive materials license. The authorized user is as follows:

Additional Authorized User:

Shrey K. Thawait, M.D.

NRC Lic# 13-09649-02

3. Northern Shared Medical Services would like to drop the "Northern" from our name to make it Shared Medical Services. Nothing has changed from an organization ownership, structure, personnel, equipment, radiation safety program, possession or other procedures that relate to the licensed program. I have completed the attached form as directed by a Region III staff member.

Thank you for your kind attention. If any questions should arise, please feel free to contact me 608-839-9956.

Sincerely,

A handwritten signature in black ink, appearing to read "Paul Flaten", with the date "3-13-17" written to its right.

Paul Flaten, Director Radiation Safety, ARSO
Northern Shared Medical Services

RECEIVED MAR 15 2017

Information Needed For Transfer of Control Application

Include a contact name and either U.S. Nuclear Regulatory Commission (NRC) regional office or Headquarters telephone numbers for follow-up information, as required.

NRC Region: Region III Contact: Paul Featon
Telephone: (608) 839-9956 Fax: (608) 839-1721

Definitions:

Control: Control of a license is in the hands of the person or persons who are empowered to decide when and how that license will be used. That control is to be found in the person or persons who, because of ownership or authority explicitly delegated by the owners, possess the power to determine corporate policy and, thus, the direction of the activities under the license.

Transferee: A transferee is an entity that proposes to purchase or otherwise gain control of an NRC-licensed operation.

Transferor: A transferor is an NRC licensee selling or otherwise giving up control of a licensed operation.

Information Needed for Transfer of Control * *→ NAME change only. Drop "NORTHERN" from Northern Shared Medical Services to become Shared Medical Services.*
Licensees must provide full information and obtain NRC's *prior written consent* before transferring control of the license. Provide the following information concerning changes of control by the applicant (transferor and/or transferee, as appropriate). If any items are not applicable, so state.

1. Describe any planned changes in the organization, including but not limited to, transfer of stocks or assets and mergers, change in members on Board of Directors, etc. *NO CHANGES*
Provide the new licensee name, mailing address, and contact information, including phone numbers. Clearly identify when the amendment request is due to a name change only.
2. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel and any changes in the training program. *NO CHANGES*
3. Describe any changes in the location, facilities, equipment, radiation safety program, use, possession, waste management, or other procedures that relate to the licensed program. *NO CHANGES*
4. Describe the status of the licensee's facilities, equipment, and radiation safety program, including any known contamination and whether decontamination will occur prior to transfer. Include the status of calibrations, leak tests, area surveys, wipe tests, training, quality control, and related records. *NO CHANGES*
5. If current decommissioning funding plans (DFP) will be changed as a result of the transfer, the revised DFP should be submitted. If other financial assurance documents will be changed as a result of the transfer, confirm that all financial assurance instruments associated with the license will be held in the transferee's name before the *N/A*

license is transferred, and as required by 10 CFR 30.35(f), the licensee must, within 30 days, submit financial instruments reflecting such changes.

6. Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed and/or removable contamination, including methods and sensitivity. N/A
7. Confirm that both transferor and transferee agree to transferring control of the licensed material and activity, and the conditions of transfer, and that the transferee has been made aware of any open inspection items and its responsibility for possible resulting enforcement actions. N/A
8. Confirm that the transferee will abide by all constraints, conditions, requirements, representations, and commitments of the transferor or that the transferee will submit a complete description of the proposed licensed program. N/A
9. The transferee, in the case of fuel cycle facilities, shall provide documentation showing that it is financially qualified to conduct normal operations. The information can be in the form of income statements and balance sheet forecasts. N/A.
