Dear Ms. Jenny:

This letter is in response to your submittal GLE-2017-003 dated January 29, 2017, entitled "Global Laser Enrichment Test Loop Revised ISA Summary Per 10 CFR 70.72(d)," which provided the 2016 annual updates for your Integrated Safety Analysis Summary (ISA). The ISA Summary update is not available in the Agencywide Documents Access and Management System (ADAMS) because it contains classified information.

We have completed an acceptance review and identified no major deficiencies. Therefore, no cost activity code has been assigned to this action. A detailed review may be performed by inspection staff during a future inspection.

In accordance with Title 10 of the *Code of Federal Regulations* Paragraph 2.390(d) of the U.S. Nuclear Regulatory Commission's (NRC's) "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of NRC's document system ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>. The transmittal letter, Enclosures 1 and 2 will not be available to the public.
