**SUBJECT: ST. LUCIE NUCLEAR PLANT – INVESTIGATION RESULTS, OFFICE OF
INVESTIGATIONS CASE NUMBER 2-2016-007**

Dear Mr. Nazar:

This letter conveys the results of the Nuclear Regulatory Commission (NRC) Office of Investigations (OI) completed report regarding falsification at Florida Power and Light Company's (FP&L) St. Lucie Nuclear Plant.

The NRC determined that there was insufficient evidence to substantiate the allegation that Radiation Protection Technicians employed by FP&L at the St. Lucie Nuclear Plant deliberately failed to complete radiation and contamination area surveys and then deliberately documented that they were completed.

We plan no further action with regard to this matter. Should you have any questions concerning this letter, please contact us.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice and Procedures," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Sincerely,

/RA/

LaDonna Suggs, Chief
Reactor Projects Branch 3
Division of Reactor Projects
