MEMORANDUM TO: Kevin Hsueh, Chief  
Licensing Processes Branch  
Division of Policy and Rulemaking  
Office of Nuclear Reactor Regulation

FROM: Jonathan G. Rowley, Project Manager */RA/*  
Licensing Processes Branch  
Division of Policy and Rulemaking  
Office of Nuclear Reactor Regulation

SUBJECT: SUMMARY OF MAY 17, 2016, CLOSED MEETING WITH THE  
PRESSURIZER WATER REACTOR OWNERS GROUP  
REGARDING TOPICAL REPORT PWROG-14001-P/NP,  
REVISION 1, "PRA MODEL FOR THE GENERATION III  
WESTINGHOUSE SHUTDOWN SEAL"

On May 17, 2016, a closed meeting was held between the U.S. Nuclear Regulatory Commission (NRC) staff and the Pressurized Water Reactor Owners Group (PWROG) representatives. The purpose of this meeting was for the PWROG representatives and the NRC staff to discuss the details of the post-operational testing plan of the Generation III Westinghouse Shutdown Seal (SDS).

In the meeting, the PWROG showed some elements of the post-operational test planning that included a total of 4 tests. The PWROG agreed to provide a draft of the SDS post-operational testing for information. To ensure all information that the NRC staff needed to develop the safety evaluation is docketed, the NRC staff was to develop request for additional information questions addressing (1) the post-operational tests schedule and bases, and (2) other un-answered questions (inspections, radiation qualification, etc.) that were identified.

A list of attendees is enclosed. The PWROG proposed test plan was determined to be proprietary in nature and, therefore, is not available publically.

Project No. 694

Enclosure:  
As stated
