

**APPENDIX P-6
FSS FIELD LOG**

Survey Area:	LSA 11	Description:	Plant Soil Area, Open Land Area
Survey Unit:	03	Description:	Class 3 LSA South of Northeast Creek located in "Area 11"

FSS Field Log:

<u>Date/Time:</u>	<u>Observation or Comment:</u>	<u>Technician</u>
05/05/15	<p>At beginning of shift conducted updates for the month of May changeover and prepared FSS plans for approaching projects. Prior to beginning a GWS of LSA 11-03 a task-specific safety briefing was performed by the FSS Supervisor. At ~1245 before commencing GWS the FSS crew confirmed I&C integrity and performed a quality walk-down. Weather conditions were sunny and hot in the high-70s °F. Ground conditions were dry and covered by an abundance of thicket and thorns. Full Tyvek was donned to mitigate the hazards of thorns, ticks, and other insects. Commenced a GWS at 1300. Completed the GWS of LSA 11-03 at 1547 and exited the I&C boundary at 1600. GWS files generated:</p> <p>LSA_11_03_050515_A_MC</p> <p>LSA_11_03_050515_E_JW</p>	<p>Jahmai Williams</p> 
05/12/15	<p>Commenced daily activities at an earlier predetermined time of 0600 to utilize the advantage of cooler weather. Prior to beginning subsurface soil sampling of LSA 11-03 a task-specific safety briefing was performed by the FSS Supervisor. At ~0755 before commencing sampling the FSS crew confirmed I&C integrity and performed a quality walk-down. Weather conditions were sunny, breezy, and cool in the 60s °F. Ground conditions were dry and covered by an abundance of thicket and thorns. Full Tyvek was donned to mitigate the hazards of thorns, ticks, and other insects. Commenced random soil sampling at 0830. At 1610 random soil sampling was secured, and the I&C boundary was exited. Sample ID's collected:</p> <p>L11-03-01-P-S-S-00, L11-03-02-P-R-S-00, L11-03-03-P-E-S-00</p> <p>L11-03-04-P-S-S-00, L11-03-05-P-R-S-00, L11-03-06-P-E-S-00</p> <p>L11-03-07-P-S-S-00, L11-03-08-P-R-S-00, L11-03-09-P-E-S-00</p> <p>L11-03-10-P-S-S-00, L11-03-11-P-R-S-00, L11-03-12-P-E-S-00</p> <p>L11-03-13-P-S-S-00, L11-03-14-P-R-S-00, L11-03-15-P-E-S-00</p> <p>L11-03-05-P-R-Q-00</p>	<p>Jahmai Williams</p>

Observation or Comment:

Technician

05/13/15

Commenced daily activities at an earlier predetermined time of 0600 to utilize the advantage of cooler weather. Prior to beginning subsurface soil sampling of LSA 11-03 a task-specific safety briefing was performed by the FSS Supervisor. At ~0805 before commencing sampling the FSS crew confirmed I&C integrity and performed a quality walk-down. Weather conditions were sunny, breezy, and cool in the 60s °F. Ground conditions were dry and covered by an abundance of thicket and thorns. Full Tyvek was donned to mitigate the hazards of thorns, ticks, and other insects. Commenced random soil sampling at 0840. Completed sampling of LSA 11-03 and exited the I&C boundary at 1135. Sample ID's collected:

Jahmai
Williams
