APPENDIX P-6
FSS FIELD LOG

Survey Area: LSA 11 **Description:** East Open / Southeast Open Land Area

Survey Unit: 06 **Description:** Class 1 Area 12; South of Rail Spur

FSS Field Log:

Date/Time:	Observation or Comment:	Technician
5/17/16 – 08:30	Begin assembling supplies for sampling activities. Sampling to be performed to further investigate elevated Tc-99 samples in LSA 11-02. The elevated samples are L11-02-(25-29)-P-S-B-00. A portion of LSA 11-02 will be defined as LSA 11-06. A majority of the sampling being performed today will be in the ditch South of the main Railroad line. The weather today is rainy and cold. We will maintain garden hose pumps in the ditch to help manage the water while sampling.	J Michel, D Love, J Williams
5/17/16 – 09:30	Begin sampling.	J Michel, D Love, J Williams
5/17/16 – 11:00	Rain has picked up. Will resume sampling after lunch.	J Michel, D Love, J Williams
5/17/16 – 12:45	Resume sampling.	J Michel, D Love, J Williams
5/17/16 – 14:15	Sampling complete. 9 locations were sampled in 6" grabs to a depth of 1'. 2 samples at each location.	J Michel, D Love, J Williams
5/17/16 – 15:00	Samples prepared for shipment and placed in coolers in sample cage.	J Michel, D Love, J Williams
