Summary of Changes to Three Forms that Implement the Wolf Creek Generating Station (WCGS) Radiological Emergency Response Plan (RERP)

1. Form EPF 06-001-08, "Off-Site Communicator Checklist," Rev. 1A

This revision changes the facsimile machine telephone number to 620-256-0223. This change is editorial in nature and does not decrease the effectiveness of the WCGS RERP.

2. Form EPF 06-004-09, "Media Center Checklist," Rev. 3

The reference to a cell phone has replaced a reference to a radio in step one in the Stage 1 Activation section because cell phones have replaced radios as the means of communication between the Joint Information Center (JIC) and the Media Center in Topeka, Kansas. The wording in step 1 of the Stage 2 Activation section has been revised for simplicity. These changes are administrative in nature and do not decrease the effectiveness of the WCGS RERP because adequate facilities and equipment continue to be provided in support of the WCGS RERP at the Topeka facilities.

3. Form EPF 06-018-16, "Topeka Joint Information Clearinghouse (JIC) Inventory Checklist," Rev. 4A

The descriptions of supplies and printers used at the Topeka JIC have been changed to more accurately describe those supplies and printers. Adequate supplies and equipment continue to be provided at the Topeka JIC and these editorial changes do not decrease the effectiveness of the WCGS RERP.
