Lisle, IL 60532-4352

From: Bryan N. Harris
Radiation Safety Officer
Michigan State University

Re: **License No. 21-00021-29**
Request for Amendments

I am requesting an amendment to License No. 21-00021-29. We request to add an alternate license address to License No. 21-00021-29. The Michigan State University Office of Environmental Health and Safety, which includes the Radiation Safety Office, is relocating to a new address this year. Once the current facility has been fully decommissioned and all operations have transitioned to the new facility, another license amendment shall be submitted to request the current facility's removal from the license.

The new facility's address is:

4000 Collins Road, Lansing, MI 48910

The move is expected to begin at the end of May, 2017 and be completed by July, 2017.

Please contact Bryan Harris, Radiation Safety Officer, at 517-884-3309 for additional information.

Thank you

Bryan Harris
