Mr. Anthony McMurtray  
Office of Nuclear Materials Safety and Safeguards  
U. S. Nuclear Regulatory Commission  
Washington, DC 20555

OPPORTUNITY TO COMMENT ON DRAFT NUREG-1556, VOLUME 17, REVISION 1,  
"CONSOLIDATED GUIDANCE ABOUT MATERIALS LICENSES: PROGRAM-  
SPECIFIC GUIDANCE ABOUT SPECIAL NUCLEAR MATERIAL OF LESS THAN  
CRITICAL MASS LICENSES" (STC-17-011)

Dear Mr. McMurtray:

The Organization of Agreement States (OAS) Executive Board (Board) has reviewed the  
above document and respectfully submits the following comments.

1. Page I-1, lines 14-23. This passage is supposed to be taken from 10 CFR 150.11(a), however, the equation should be listed after line 23 with the following inserted before it: For example, the following quantities in combination would not exceed the limitation and are within the formula, as follows: [insert equation] The actual formula would have variables in the numerators for the specific quantity that a licensee may possess. Adding the formula may help clarify this passage.
2. Page I-6, line 34-35. A good air sampling program cannot always prevent the need for a bioassay program. The air sample results could indicate the need to require bioassay samples.
3. Page I-9. Elevated air monitoring results should be included in the bulleted list as a reason to do special bioassay measurements.
